

## **Storage of HRP**

### *Resuspend*

Add 2mL sterile ddH<sub>2</sub>O to powder

\*You must resuspend in H<sub>2</sub>O. The antibody will not resuspend in 50% glycerol.  
Let the antibody dissolve; resuspend very gently

### *Store*

For storage, add 2mL 100% glycerol (for a final concentration of 50%)

### *Aliquot*

Aliquot into 100μL aliquots and store at -20°C
