ASSISTANT PROFESSOR IN PLANT BIOLOGY

Faculty Position in Plant Biology
Department of Biology
Washington University in St. Louis

The Department of Biology at Washington University is seeking a colleague working in the area of Plant Biology for a newly created and approved search at the rank of tenure-track Assistant Professor. Under exceptional circumstances, tenured appointments may be considered at the rank of associate or full professor. Candidates should have a Ph.D., significant research accomplishments and a commitment to pursue innovative approaches to study plants, as well as a dedication to excellence in both graduate and undergraduate education. Areas of interest include cell biology, development and biochemistry, especially programs that take advantage of systems and imaging approaches. Participation will be encouraged in interdisciplinary research within the plant biology community (http://www.biology.wustl.edu/plant/plantbiology.php), which includes the Donald Danforth Plant Sciences Center (http://www.ddpsc.org/), and within the broader life science community at Washington University (http://dbbs.wustl.edu).

Review of applications will begin November 13, 2006. Applications will be accepted until the position is filled. Please submit a cover letter, curriculum vita, brief statements of research and teaching interests, reprints of up to three papers, and the names and affiliations of three persons who have been asked to send letters of recommendation. We prefer electronic submissions, which can be submitted to the following e-mail address:

plantsearch2006@biology.wustl.edu

If preferred, hard copy application can be mailed to the following address:
